

TRIBUNE THURSDAY

M.V. Moonta

The Adelaide Steamship Company Limited have received advice by cable that the new motor vessel, "Moonta" has left England for Australia, and is expected to arrive at Port Adelaide on or about the 21st of November.

Trial trips proved most satisfactory, and exceeded all expectations. The vessel will be the last word in construction for one of her size.

Her gross tonnage is 2,693 tons and nett tonnage 1,538 tons.

The "Moonta" will be placed in commission for Spencer Gulf Ports immediately upon arrival, calling at Ports Lincoln, Pirie, Augusta and Hughes. Excellent accommodation is available for passengers.

The proposed itinerary will be for the "Moonta" to leave Port Adelaide about 4 p.m. on Saturdays, returning about 7 a.m. the following Friday, calling at the above-named ports.

A special feature of the vessel will be the Spencer Gulf Tourist Service. For the modest sum of £6 one will be able to spend almost a week visiting the larger of Spencer Gulf ports.

Further details will be published later.
